

## MONTHLY CONCERT SERIES

Are you looking for some great entertainment? Find it right here in West Bountiful at our free local featured artist performances presented by the Arts Council.

### Celebration Chamber Orchestra

Friday, October 12, 2007  
7:00 P. M.  
City Hall

Paula Sallstrom (pictured above) is the principal cellist in the 25-member chamber orchestra directed by Kent Jensen. Players are mostly from Davis and Weber Counties, and rehearse every Thursday evening. They are all coming to entertain us with some Broadway tunes and favorite light classics, and it's FREE!

### Echoes of the Heart Singing Group

Friday, November 9, 2007  
7:00 P. M.  
City Hall

Come and celebrate both Thanksgiving and Christmas seasons! This local group has brought great harmony and fun to audiences for over 10 years. Members include (front to back, left to right) Paula Sallstrom, Terri Johnson (founder), Becky Johnson, Lesley Leger, Susan Ward, Jackie Dunn, Alisa Jacobs, Cynthia Woodward, Colleen Maloy (accompanist) and Pat Soper.

### Tree lighting Ceremony a Visit With Santa Clause

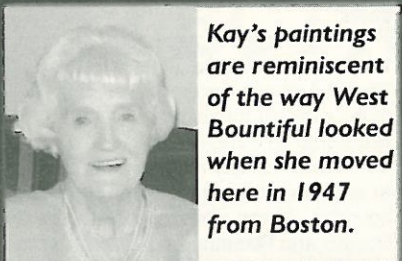

Monday, December 10, 2007  
7:00 P. M. at City Hall

Santa will arrive in West Bountiful at 5:00 p.m. and begin his annual ride on the Fire Engine through city neighborhoods arriving at City Hall at 7:00 p.m. just in time for the tree lighting ceremony, children's choir entertainment, and visits with children.

## FEATURED ARTISTS

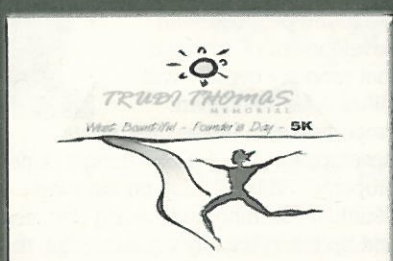

### Local Artist Catherine Gibson Hood

Kay's paintings are reminiscent of the way West Bountiful looked when she moved here in 1947 from Boston.

17 of September thru October 15

### Trudi Thomas Memorial 5k Run Signature Quilt

October 16 thru November 9

### Christmas on Onion Street Vendors and Craft Displays

Watch for more details to come soon!!

## Temperatures Make for Active Mosquito Season

West Nile Virus (WNV) continues to be active in Utah and Davis County this year. WNV is a bird disease. We have two mosquito species here in Davis County that spread the virus. It requires the mosquito to take two blood meals to spread the virus. The mosquito must first take a blood meal from an infected bird. Inside the mosquito the virus then grows and migrates to the saliva glands. When the mosquito bites someone or something else it injects saliva into the next thing she bites and with that the virus. She will continue to spread the virus with each blood meal she takes.

One of the mosquitoes that spread this disease you raise in your own yards. This mosquito is a Culex pipiens or the Northern House Mosquito. You can have a big impact on the number pipiens in your neighborhood. This mosquito grows and matures in containers that are holding water. Things like buckets, wheel barrels, horse troughs, ornamental ponds, wadding pools, bird baths. If the water is standing in a container for more than 7-10 days it can start producing mosquitoes. If you have an ornamental pond or horse trough we can put mosquito eating fish or other products in those containers

to stop the mosquito development. We had anticipated that this would be an active virus year due to the above normal temperatures in the spring and through most of the summer. The hot temperatures have made it a very high mosquito year. The WNV was detected earlier than last year and some virus activity has been detected in West Bountiful. We have increased our spraying for adult mosquitoes throughout the county and have been monitoring the virus activity very closely. Twelve counties in the state have reported virus activity. Currently

there have been 7 human cases in the state with one occurring in Davis County. The virus detection in mosquito pools has gone up substantially in last two weeks. We are seeing an increase in virus active throughout the county.

When you are outdoors in the evening after the sun goes down you need to put on mosquito repellent and long pants and long sleeve shirts if possible. Remove any standing water from around your home. You can report mosquito source to us by calling our office.

## Option for Sewer Bill Payment for 2008

The South Davis Sewer District will introduce an Electronic Direct Pay Program beginning January 2008.

The South Davis Sewer District sends bills out twice a year, once in January and once in July. If you wish, your sewer bill payment will be automatically withdrawn from your bank account in those two months, eliminating writing checks twice a year, reducing postage costs, and saving time traveling to the district offices.

To enroll for Direct Pay simply complete an authorization

agreement form and return it along with a voided check or savings deposit slip, to the South Davis Sewer District's office by November 30, 2007.

You can obtain an authorization agreement form at the District's office (1800 West 1200 North, West Bountiful) or call 295-3469.

If you have questions or concerns about this new way to pay your sewer bill, please contact the South Davis Sewer District at 295-3469.

## From the Police Department Our Newest Employee, Trent Wass

Trent received his Eagle Scout at 15 years old, and spent the summer working at Camp Bartlett. He graduated from Northridge High School in Layton. After high school Trent joined the United States Navy and spent four (4) years stationed on the USS Defender a minesweeper ship. This enlistment took him to Texas, Caribbean, and the Great Lakes. During his time in the navy, Trent met his wife Jalena in Quebec, Canada. They were married in 2001 and have one daughter - age 15 months.

Trent graduated from Police Officer Standards and Training (POST) on January 19, 2006 and had been working in Weber County as a corrections officer since 2005.

Trent's hobbies are fishing and hunting, and he loves spending time with his family. His favorite sport is ice hockey and his favorite food is steak.

Welcome back to school... This has been a great summer. We've had lighter traffic and have cruised through the school zones. That time is over and we need to gear back up to

SAFETY. Please remember that the school zone is 20 MPH. We have crossing guards at major crossings and these dedicated people are there to make sure your children arrive to and from school safely. Be Kind, they are there in the sun and the snow!

\*\*\*\*\*

Please remember to keep your autumn leaves gathered up and not in the roadway. That will alleviate kids playing in the gutters and also having the drains overflow with debris. A CLEAN STREET IS A SAFER STREET... ALSO, please remember to keep our bike and jogging lanes free. DO NOT park your vehicle in these lanes. They are a NO parking lane. Citations WILL be issued.

\*\*\*\*\*

The police department would like to thank our anonymous citizens that drop off kind and thoughtful letters of appreciation for the job we do. We like hearing we are keeping you happy. We also like hearing if we don't. Law enforcement is a strange and peculiar thing. If we don't do it—it shows. When we do it, sometimes we catch people begin lax at important safety issues. Our city is GROWING, so is the crime.

\*\*\*\*\*

Please check your house for safety and make sure that you are doing everything you possibly can to keep secure and safe. With the increasing number of people in our community we need to be aware of the influx of home burglaries, vehicle burglaries and thefts.
